A Frank Word About Our

BULB CATALOG

You will not receive a copy of our 1945 BULB and SEED CATALOG unless you send in the attached card . . . because . . .

Government restrictions on the use of paper limits us to fewer catalogs this year . . . and

You have had several catalogs from us, but we have not as yet had the pleasure of receiving an order from you . . . and

As it costs us considerable money to print each catalog, we must naturally get some business from those

we send out, otherwise we could not afford to issue them . . . SO

Unless you send in the attached card stating that you want this year's catalog . . . OR

You send in an order for some of the bulbs listed on this circular . . .

We will assume you are no longer interested in the things we have to sell, and we will remove your name from our mailing list.

DUTCH HYACINTHS

We have just received word from our pre-war sources that HYACINTH BULBS *may* reach us in time for fall delivery. As no absolute assurance can be given on delivery, however, we are accepting orders now on hyacinths subject to safe arrival in this country. In ordering hyacinths, please do so with that understanding. If bulbs reach us as expected, we will get them to you in time for fall planting. If they do not come thru, your money will be refunded.

All of our other bulbs are the finest quality AMERICAN GROWN, so there is no question of delivery, but Hyacinths are always imported except for a very few grown in this country. You can count on full delivery of all other bulbs, but bear in mind that delivery of Hyacinths is contingent upon safe arrival of bulbs in this country.
